About Set In Steel

Set In Steel manufactures custom made designer pieces to suit any room or space. Our tables are made from lightweight polished concrete in a range of colours. Legs can be constructed in powder coated steel, timber or stainless steel options We are happy to look at any concept ideas and see if we are able to create them for you.

All of our tables are sealed with a two part, food grade polymer sealer which requires minimal care. (NOTE: stains may occur if spills are left on the surface)
