# POLISHED CONCRETE

Vanity, Bath & Basins Options

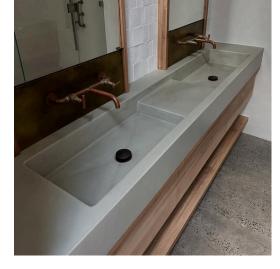

# **ABOUT US**

Set In Steel designs and fabricates hand-crafted bathroom and wet area fixtures creating a unique point of difference.

All projects are made by hand to exact measurements. We partner with you to customise products that are functionally fit and formed for purpose, highlighting your space.

# **FUNCTIONAL, FLOWING, FORM**

# **UNIQUE DESIGNS - PURPOSE BUILT**

### **BASIN STYLE**

- Select from our standard sizes in Circular, Rectangle, Square, Ramp Styles inbuilt basins
- Ask us to create a custom design and size
- Choose to install the vanity on joinery or brackets to create a floating appearance

### **COLOUR**

- Select a colour from our standard range or our colour recipes from past projects
- Create a custom colour by supplying a tile or colour swatch to match to
- Include Aggregates in the mix NOTE that this is not possible with all styles

### **FINISH**

- GFRC off the form finish provides a more even colour overall and is our preferred mix for vanity tops
- ECC Trowel mix finish organic look with light and dark shades may be selected in some vanity styles
- Polished Aggregate finish add in aggregates to any concrete colour option - may be selected in some vanity styles
- Hand pressed for outer facing surfaces
- Rock finish for outer facing surfaces
- Custom facing finishes
- Fully sealed surface for easy maintenance

### DESIGN SERVICE

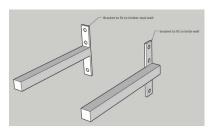

- Not sure what you need?
- Call our office and we will be happy to assist in the design and provide a draft plan and a quote.

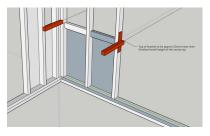

### **BRACKETS**

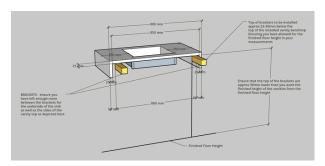

• Brackets may be required to support your vanity top

Left side bracket suits fixing to brick wall Right side bracket for fixing to timber stud frame

Options for the placement of brackets

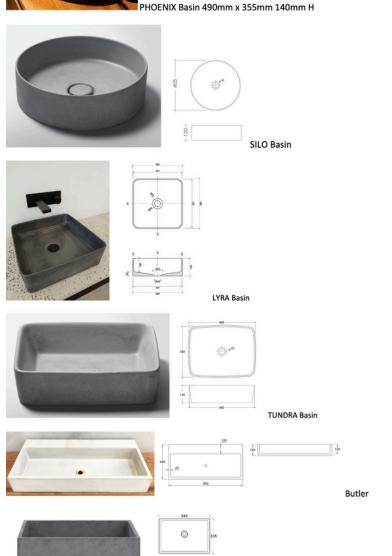

When installing the brackets remember to ensure that you have left sufficient space for the underside of the basin and sides of the concrete vanity top. The concrete shell will be approx 20-25mm thick on the vanity sides, top and shell of the inbuilt basins.

## **BASINS**

### Select from standard basins

Horizon Basin.

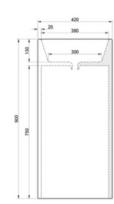

# **BASINS**

### Pedestal Basins

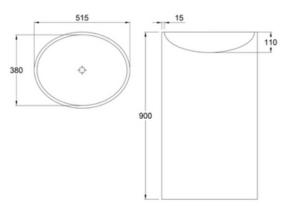

Tropez Column Basin

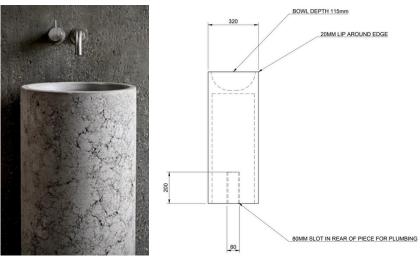

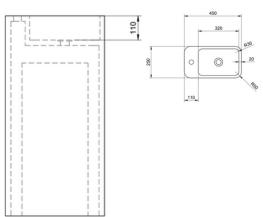

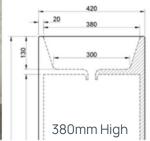

### **BATHS**

1700mm long oval freestanding bath

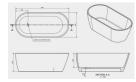

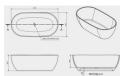

1100mm diam round freestanding bath

We can also customise a bath for you

### **DELIVERY & INSTALLATION**

- We fabricate all orders at our workshop in Unanderra NSW
- Depending on your location we may be able to install for you or we can arrange for delivery to your site
- We may need to include a HIAB to deliver and install your order depending on size and location
- EXCLUSIONS electrical, Plumbing which you will need to arrange following the installation

### **QUOTE**

 Unfortunately we are unable to come to site to quote, however we are able to work with you over the phone, emails and photos to determine what you need and provide an itemised quote

Please supply the following details as a starting point:

- Address
- Contact number
- Email
- Any plans of the pieces you are interested in
- If you dont have any plans then Length x depth x height and quantity you need
- Please note if you want inbuilt basins included as well as the shape of the basins
- If your prefence is for a ramp style basin do you want it to have a hole for a plug and waste or a slot drain at the back
- The internal depth of the basins
- Note also if you will either pick up the vanities when ready from our workshop, require them to be delivered, or do you need us to install them (PLEASE NOTE THAT INSTALLATION IF REQUESTED WILL NEED TO BE REVIEWED DEPENDING ON YOUR LOCATION)
- Access is your site steep, are there stairs, etc
- Email these details to enquiries@setinssteel.com.au
